

“Engineering in Medicine”

@ Frontiers in Cardiovascular Science Seminar Series

Shu Chien, M.D., Ph.D.

Y.C. Fung Professor of Bioengineering
Director, Institute of Engineering in Medicine
President of the Biomedical Engineering Society
University of California at San Diego

Dr. Shu Chien is currently President of the Biomedical Engineering Society and is one of only 11 scholars who are members of all three U.S. national institutes: the National Academy of Sciences, National Academy of Engineering, and the Institute of Medicine. In 2011, he received National Medal of Science (the highest honor for scientists and engineers in USA) from President Obama for his pioneering work in cardiovascular physiology and bioengineering.

Friday , May 31, 2013

4:00 - 5:00 pm

Reception at 3:00-4:00 pm

Danto Auditorium of the Cardiovascular Center, Room 2314

1500 E. Medical Center Drive, Ann Arbor, MI

Sponsors: *UM Association of Chinese Professors, School of Medicine, College of Engineering, Center for Advanced Models for Translational Sciences and Therapeutics, Center for Chinese Studies*
