

Keynote Lecture:

**A Case History and General Thoughts
on Academic Career**

Shu Chien, M.D., Ph.D.

Y.C. Fung Professor of Bioengineering
Director, Institute of Engineering in Medicine
President of the Biomedical Engineering Society
University of California at San Diego

Dr. Shu Chien is currently President of the Biomedical Engineering Society and is one of only 11 scholars who are members of all three U.S. national institutes: the National Academy of Sciences, National Academy of Engineering, and the Institute of Medicine. In 2011, he received National Medal of Science (the highest honor for scientists and engineers in USA) from President Obama for his pioneering work in cardiovascular physiology and bioengineering.

Saturday, June 1, 2013

9:15 - 11:00 am

Followed with Interactive Discussion and Lunch

Chesebrough Auditorium at Chrysler Center

2121 Bonisteel, North Campus

Sponsors: *UM Association of Chinese Professors, College of Engineering, School of Medicine
Center for Advanced Models for Translational Sciences and Therapeutics, and Center for Chinese
Studies*
